

After many years of having to be frustrated and harrassed by telemarketers, why would you even consider changing this welcomed legislation allowing the banking industry to "open the telephone lines" again for their own profit leading to their gratification!!!! To do so would be bending to the lobbyists...to do so would be opening the door by setting a precedent for other industries to ask the same favors as the banking industry. DO STAND FIRM and resist these persuaders, these lobbyists. Stand on the right of the individual to be able to choose not to be harrassed by any business or industry on their telephones. We do not want to regress or not stand up to these powerful businesses.
